

SIEM/SOAR Services

QRadar, Splunk, MS Sentinel, Palo Alto Cortex, Sumo Logic

ScienceSoft Cybersecurity is a team of **SIEM/SOAR experts, SOC consultants, and CEH pen testers**. Our flagship cybersecurity product called **QLEAN SIEM App Suite** has been named a global **Beacon Award finalist** for two years in a row (2020, 2021). Our teams work in a fully secure, closed-off and controlled environment compliant with ISO 27001.

ScienceSoft engineers bring **two decades** of **SIEM/SOAR/SOC expertise & solutions development, deployment, integration, migration, health checks, fine-tuning, optimization, continuous L3 SIEM support & maintenance, remote SIEM/SOC monitoring services, training, and SOC consulting**. ScienceSoft was involved in the development of TSIEM platform from scratch in 2006–2011 on behalf of IBM. ScienceSoft is now one of the leading and most capable SIEM/SOAR professional services providers worldwide.

ScienceSoft has the right experience, skillset and commitment to **successfully launch** and lay the foundation for a **successful project completion**:

- Expert knowledge of SIEM/SOAR architecture and implementation, dedicated SIEM/SOAR SME team
- Deep technical expertise of networking devices, operating systems, software and device audit, logging, and security subsystems
- Proven track record: hundreds of successfully completed cybersecurity projects
- Considerable hands-on experience with security solutions lifecycle

Cybersecurity Portfolio

✓ Microsoft Sentinel SIEM/SOAR services	CEH pen testing (web, mobile, network)
✓ Palo Alto Networks Cortex XSOAR/XSIAM	Custom cybersecurity app development
✓ QRadar SIEM/SOAR	Vulnerability assessment
✓ Splunk SIEM/SOAR	Infrastructure security audit
✓ Sumo Logic Cloud SIEM	Compliance testing
